Professional Summary

“A detail-oriented Front-end Developer passionate about creating clean, responsive, and visually engaging digital experiences. Beyond coding, I bring UI/UX design principles and graphic design skills to craft interfaces that are not only functional but also aesthetically appealing. I’m also expanding into backend development on my journey to becoming a Full-stack Software Developer.”

Skills

HTML, CSS, JavaScript (ES6), ReactJS, TailwindCSS | Figma, UI/UX Design | Git, GitHub, Vite | EsLint, Prettier

Work Experience

Frontend Intern – HNG13 Oct, 2025 – Nov, 2025

- Developed responsive user interfaces using HTML, CSS, Tailwind, JavaScript, and TypeScript ensuring clean layout and consistent styling across multiple screens.
- Implemented interactive features and reusable UI components in React, improving page usability and overall code structure.
- Collaborated with designers and backend interns to translate Figma designs into functional pages, ensuring accurate UI alignment and smooth user experience.
- Used Git and GitHub for version control, resolving merge conflicts and working with feature branches to maintain an organized workflow.
- Contributed to team tasks during sprints, delivering features within deadlines and strengthening collaboration skills.

Projects

PL – HTML5, CSS3, Javascript (ES6)

- PL (Peer Learning), a peer-to-peer skill exchange platform is a web application that connects students who want to teach a skill with those who want to learn a skill.
- I worked collaboratively with another Associate level Frontend developer. Based on the UI/UX Figma design, I built 4-5 pages of the app with devices responsiveness integrated.

E-Dave (My Portfolio) - React, TailwindCSS, JavaScript, Prettier, ESLint

- This portfolio website is a personal showcase of my frontend development work, featuring selected projects, skills, and professional experience. It’s built with a responsive design, smooth navigation,

and reusable components, providing a clear and engaging way for users to explore my work and learn more about me as a developer.

BEManager - React, TailwindCSS, Vite

- A modern web application for managing browser extensions with a clean, responsive interface and theme switching capabilities.

Audiophile - React, TypeScript, TailwindCSS, Vite

- Audiophile is a modern e-commerce web app built during the HNG Internship, featuring responsive product pages, smooth navigation, and cart functionality. It showcases premium audio products and emphasizes clean UI, performance, and real-world e-commerce workflows.

Ticket Manager – React, JavaScript, TailwindCSS

- The Ticket Manager App is a task-tracking tool designed to help teams create, assign, and monitor tickets efficiently. It features a clean interface, status updates, and organized workflows, focusing on usability, collaboration, and real-world project management functionality.

Education

B.Sc. Computer Science with Economics – Obafemi Awolowo University, Ile-ifé, Nigeria -
Oct. 2023 – Present

Certifications (Optional)

- [HNG13-Frontend-Developer-Intern](#) – HNG Tech, 2025
